Auto Recyclers

Beaudry
OIL & PROPANE

Use on oils, fuels, paints, coolants, grease, water, and other spills.

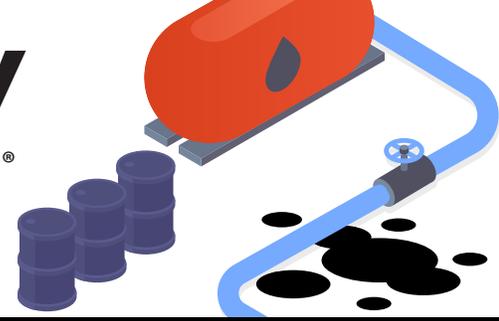

ALSO IDEAL FOR:
Garage • Outdoors • Camping
Home • Office • Schools

CAN DRY[®]

ULTRA PREMIUM

CLEANS UP LIQUID SPILLS & ODORS

CAN ► DRY[®] ULTRA PREMIUM APPLICATIONS

To remove oil spills or other liquid spills cover spill with a generous amount of **CAN DRY[®]**. Sweep up when dry.

SPILL CONTAINMENT:

Pour 3.5 inches high around the perimeter of the spill to contain the liquid and prevent further liquid damage or contamination. Increase application where spill is larger and add more material when the **CAN DRY[®]** is saturated.

FLOODING:

CAN DRY[®] can be used to clean up after flooding. Remove all excess standing water. Apply up to 1 inch of **CAN DRY[®]** on top of the sub-floor. Let product sit until dry. Sweep up. Reapply if still damp. When vacuuming use a Shop Vac. Dispose of used material.

ODOR CONTROL:

Keep your garbage cans dry and odor free by layering bottom of garbage can with 1 inch of **CAN DRY[®]**. Perfect for trash cans, waste containers, compost bins, dumpsters and compactors.

FOR TRACTION ON SNOW / ICE:

To assist with traction place a generous amount of **CAN DRY[®]** under the vehicles' wheels. **CAN DRY[®]** can also be used as a traction aid on walkways by sprinkling a generous amount on top of the snow or ice.

The handling and disposal of sorbents saturated with hazardous materials must be in accordance with local, State and Federal regulations.
